Summary: On September 10, 2013, the Forest Preserves of Cook County Board of Commissioners approved the Forest Preserves of Cook County (the "Forest Preserves") request to enter into an intergovernmental agreement with the Village of Hoffman Estates (the "Village") and the Hoffman Estates Park District (the "Park District") to participate in the development of trail improvements connecting the Prairie Stone Business Park to the Poplar Creek loop trail in Northwest Cook County (the "2013 IGA"). The Forest Preserves was authorized to spend \$84,531.00. Required authorizations to complete the project as designed were not received before the deadlines in the 2013 IGA. The Forest Preserves spent \$20,898.52 under the 2013 IGA.

The Forest Preserves now requests authority to enter into a new agreement with the Village and the Park District to jointly design and construct for the East-West portion of the original project which includes the paving of an existing ½-mile unpaved path through the Poplar Creek Forest Preserve from Route 59 west to the CN railroad tracks. 80% of the costs for this East-West portion of the project are anticipated to be covered by federal grant funds, with the remaining 20% of costs to be shared by the Forest Preserves, the Village, and the Park District. The Forest Preserves share under this new proposed intergovernmental

agreement is \$72,212.50. However, the Forest Preserves is credited for the \$20,898.52 paid under the 2013 IGA so its final total cost is a not to exceed amount of \$51,313.98. The Forest Preserves will assume responsibility for maintenance and operation of the segment of the project on Forest Preserves property. The final agreement is subject to legal review and approval.

Summary: The Forest Preserves of Cook County (the "Forest Preserves") recently completed a feasibility study to extend the existing paved trails at 26th St. and 1st Ave. to Ogden Ave./Cermak-Ottawa Woods. The feasibility study identified multiple alternatives that included both on-street and off-street options for further Phase I engineering study and design. It also included improved access to the Brookfield Zoo along 31st St. for pedestrians, bicyclists, and other non-motorized trail users. The Forest Preserves requests authority to enter into an intergovernmental

agreement with the Villages for a Phase I Engineering Study for routes that will enable future trail users to safely travel from the Salt Creek trail system to the Chicago Portage National Historic Site. 80% of project costs will be covered by state grant funds, the Forest Preserves will make a one-time contribution of \$16,000.00, and the Villages will cover the remaining costs and expenses for the project. The Village of Brookfield will be the lead agency.

By committing a portion of the estimated cost of the Phase I study the Forest Preserves will contribute to the broader goal of connecting its trails with these surrounding communities and close a key segment depicted in the Northeastern Illinois Regional Greenways Plan. The final agreement is subject to legal review and approval.
