Dear President Preckwinkle and Board of Commissioners:

The Office of the County Auditor (OCA) is submitting its Fiscal Year 2026 Audit Plan (Plan) for the Forest Preserve District of Cook County (FPDCC). Per the [County Auditor Ordinance, Section 2-311.9](#) – Audit Schedule, “At the beginning of each fiscal year, the Auditor shall submit an audit schedule to the County Board for referral to the audit committee for review and comment.”

The Plan was developed to support OCA’s “Back to the Basics” focus on providing insight into whether adequate controls exist for core FPDCC processes including payroll (e.g., ensuring the right people are paid the right amount at the right time), asset inventory (e.g., ensuring the proper acquisition, usage, tracking, and disposition of assets), and information technology (e.g., ensuring information security programs and practices provide sufficient protection). Depending on OCA’s workload and other factors mentioned in this Plan, some of these engagements may not be initiated during the Fiscal Year, and other engagements may be conducted that are not in this Plan based upon resource availability and special requests for assistance.

To successfully implement this Plan, OCA is working diligently with the County’s Bureau of Human Resources to reach our planned, budgeted staffing level of 23 full-time equivalent employees for Fiscal Year 2026. This work includes filling OCA’s information technology auditor positions which have been vacant for more than five years. Additionally, OCA is utilizing a third-party specialist to assist with our information technology audits plus we are implementing an audit case management system. The system will assist OCA in meeting required audit standards and improve our overall efficiency and effectiveness.

Based on our planned, budgeted staffing level of 17 staff auditors, we have more than 3,500 audit days available to complete work in this Plan. For the past three fiscal years, OCA conducted reviews of specific American Rescue Plan Act (ARPA) funded

www.cookcountyil.gov

Note: OCA previously submitted its Fiscal Year 2026 Audit Plan on November 7, 2025, which addressed both the County and FPDCC as a single document. During the County’s Audit Committee meeting on December 17, 2025, OCA was informed that its Audit Plan needed to be separated and resubmitted. Thus, this resubmission but OCA will post its combined Audit Plan to its website once the Plan is approved.

projects to ensure compliance with applicable requirements. For Fiscal Year 2026, OCA will cease the ARPA reviews and instead will conduct engagements to determine whether bureaus/departments have adequate controls over their grants management processes, including ARPA grants.

OCA is also implementing a corrective action verification (CAV) process to review the corrective actions for closed recommendations. CAVs will primarily be performed on the more significant, closed recommendations. OCA will communicate with the applicable FPDCC department the results of the CAV and advise if the corrective action is working as intended. OCA will also provide management consulting services, special audits, and assistance with special projects.

OCA has a dedicated staff auditor who works exclusively on engagements of FPDCC. Additionally, a supervisory auditor, the Deputy County Auditor, and I spend a portion of our time working on FPDCC engagements. For Fiscal Year 2026, we have three planned engagements of FPDCC's controls over key financial processes, procurement/contracting, and fleet management.

As you are aware, I joined OCA on June 30, 2025, and was confirmed to a five-year term in July 2025. Since then, I have met with FPDCC's senior leaders. OCA is committed to partnering with FPDCC to improve their operations.

If you or the Audit Committee has any questions, please contact me at (312) 603-1515 or at heath.wolfe@cookcountyil.gov.

Sincerely,

A handwritten signature in cursive script that reads "Heath Wolfe".

Heath Wolfe
County Auditor

OFFICE OF THE COUNTY AUDITOR

FISCAL YEAR 2026 AUDIT PLAN

Note: OCA previously submitted its Fiscal Year 2026 Audit Plan on November 7, 2025, which addressed both the County and FPDCC as a single document. During the County's Audit Committee meeting on December 17, 2025, OCA was informed that its Audit Plan needed to be separated and resubmitted. Thus, this resubmission but OCA will post its combined Audit Plan to its website once the Plan is approved.

SECTION I: INTRODUCTION

Authority

The Office of the County Auditor (OCA) operates in accordance with the [County Ordinance, Division 6](#) - Auditor, which grants OCA the authority to conduct financial, management and performance audits of all Cook County (County) departments, offices, boards, activities, agencies, and programs and in any government entity that is funded in whole or in part by the County pursuant to the County's annual appropriation bill.

Mission

OCA's mission is to provide independent and objective assurance and consulting services designed to add value and improve the County's operations while promoting transparency and accountability in government. OCA assists the County in accomplishing its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of countywide risk management, control, and governance processes.

Role

OCA plays a significant role in the development and sustainability of a strong internal control system. Internal audit activity provides assurance to management and the Audit Committee that risks to the organization are understood and managed appropriately. The following are OCA's major roles and responsibilities:

- ❖ Assess risk Countywide to identify the audit universe and apply audit resources most effectively and efficiently.
- ❖ Conduct value-added engagements in a professional manner with high integrity.
- ❖ Evaluate and provide reasonable assurance that risk management, control, and governance systems are functioning as intended and will enable the organization's objectives and goals to be met.
- ❖ Report non-compliance issues and internal control deficiencies directly to the President, Board of Commissioners, and Audit Committee and provide recommendations for improving the organization's operations, in terms of both efficiencies and effectiveness.
- ❖ Assess the information technology environment and associated risk exposures.
- ❖ Maintain open communication with the Board, County leadership, and Audit Committee.
- ❖ Team with other internal and external resources to assess implementation and overall project controls, as appropriate.
- ❖ Adhere to auditing standards.
- ❖ Comply with continuous education and staff development requirements.

Standards

OCA adheres to the following standards in conducting audits:

- ❖ Generally Accepted Government Auditing Standards (Yellow Book)
- ❖ The Institute of Internal Auditors' Global Internal Audit Standards (Redbook)

The Redbook, version 2024, Standard 9.4 – Internal Audit Plan, states “*The chief audit executive must create an internal audit plan that supports the achievements of the organization's objectives.*”

SECTION II: APPROACH

As part of the development of the Fiscal Year 2026 Audit Plan, OCA utilized a Countywide risk identification program. The program provides a basis for the preparation of this Audit Plan while enhancing the objectivity and transparency of the audit process. Key factors across the County's various offices and departments were evaluated to assess risk and allocate audit resources. Risk identification is essential to ensure that OCA's audit resources are applied most effectively and efficiently.

For Fiscal Year 2026, the audit universe consisted of a high-level survey of the County's departments, bureaus, separately elected officials' offices, and the Forest Preserve District of Cook County (FPDCC) along with selected follow-up discussions. The following risk factors were used:

- ❖ Information technology systems/applications
- ❖ Updated written policies and procedures
- ❖ Regulatory change management processes
- ❖ Business continuity/disaster recovery processes
- ❖ Formal financial monitoring processes (e.g., defined roles/responsibilities, monthly reconciliations, approval of purchase orders, segregation of duties vendor monitoring)
- ❖ Information technology general controls

This Audit Plan is a fluid document and consists of higher risk areas identified for audit. Additionally, and in accordance with the Yellow Book, we used professional judgment in developing this Plan. Based upon current resources, OCA will focus on these engagements to ensure the best coverage. The Audit Plan and/or the nature and timing of the engagements may vary based on the following:

- ❖ Requests by management
- ❖ Changes in laws, statutes, regulations, and other mandates
- ❖ Major changes in operations, programs, systems, and/or controls
- ❖ Availability of personnel
- ❖ Potential loss and risk exposure
- ❖ Changes in audit resources

SECTION III: ENGAGEMENT SCHEDULE

TITLE	FPDCC DEPARTMENT
Financial Process Overview	Finance
➤ Determine if controls over financial processes and monitoring are functioning as intended.	
Request for Information/Proposal (Contracting)	Finance
➤ Ensure adequate controls over the administration and monitoring of contracts.	
Fleet Management Program	Various
➤ Ensure proper controls exist over the acquisition, use, and salvage processes for fleet management.
