**WHEREAS**, in August of 2013, the United States Army Corps of Engineers ("U.S. Army Corps") issued an Integrated Feasibility Report and Environmental Assessment for the Upper Des Plaines River and Tributaries of Illinois and Wisconsin (the "Report");

**WHEREAS**, the Report sought to create a comprehensive plan for addressing flooding and stormwater along the Des Plaines River; and

**WHEREAS**, the Report proposed a variety of remediation measures along the Des Plaines river, including the creation of a reservoir within the Aptakisic Creek watershed, in Lake County, Illinois, near the Village of Buffalo Grove; and

**WHEREAS**, in October, 2013, the Village of Buffalo Grove passed a resolution opposing the siting of the reservoir at Aptakisic Creek; and

**WHEREAS**, the U.S. Army Corps issued a “Documentation of Changes to the Draft Integrated Feasibility Report and Environmental Assessment” (the “Documentation of Changes”) in response to the Village of Buffalo Grove’s resolution;

**WHEREAS**, the Documentation of Changes removed the proposal for a reservoir within the Aptakisic Creek watershed and proposed the creation of two reservoirs at Fullerton Woods and the Harry Semrow Driving Range within the Forest Preserve District of Cook County; and

**WHEREAS**, the Board of Commissioners of the Forest Preserve District of Cook County were never presented with and have not ruled upon the proposal within the Documentation of Changes;

**WHEREAS**, the proposed creation of the reservoirs is not supported as a land use under law and is against the mission and land use policies of the Forest Preserve District of Cook County; and

**PROPOSED LICENSE REQUEST**

**Request:** Requesting authorization for the Forest Preserve District of Cook County (“the Preserves”), as Licensor to grant a License to The Village of Niles, Illinois (“the Village”) to locate, operate and maintain a 72-inch storm sewer and outfall structure to the North Branch Chicago River. The storm sewer is part of a storm water relief program that also includes a detention basin and bioinfiltration facility on other village property. The sewer will capture storm water runoff to relieve flooding and to reduce the combined sewer overflow discharge. The request also includes licensing the existing combined sewer overflow structure for which no license or agreement is known. The Village will also construct a new ADA crosswalk on Caldwell Avenue at Cleveland Street with push button activated flashers, and a new paved trail connection, along the route of the new storm sewer, to the existing North branch Trail. The crossing will improve accessibility and safety and provide an alternative to the current use of the FPCC driveway and parking lot to access the trail..
