## PROPOSED LICENSE REQUEST

**Request:** Requesting authorization for the Forest Preserve District of Cook County (“the Preserves”), as Licensor to grant a License to the Village of Oak Lawn and other Municipal Customers of the Oak Lawn Regional Water System, Grantee, to locate, operate and maintain a water transmission main in the Tinley Creek Preserves. Permission is now sought, upon satisfactory completion of all due diligence and negotiation of any and all relevant provisions as determined by the Preserves’ legal department, to enter into and execute the License. The request is for approximately 20,060 linear feet of new water main ranging in size from 24-inch diameter to 60-inch diameter to serve 12 southwest suburban communities. The communities are currently served by a single 40 year old 48-inch transmission main. The addition of a new 60-inch water transmission line will provide a looped system to increase capacity and provide redundancy in the event of a failure.

**Impacts:** The new pipeline will extend through the forest preserves for approximately 3.8 miles and require a license area of almost 7 acres, but will be routed primarily within an existing disturbed corridor occupied by a ComEd transmission line. Approximately 1.5 miles of paved trail will be directly impacted by construction.

**Fees and Benefits:** In addition to the license fee, the Grantee will pay an impact fee for temporary construction use of 35.6 acres, based on a daily proration of the license fee. Also, the Grantee will rebuild the impacted trail and approximately 2 miles of adjacent trail in order to avoid patchwork trail segments. The Grantee will also provide funding to reimburse the Forest Preserves for the ecologic restoration of 500 acres in the Tinley Creek Preserves. Finally, the Grantee will also provide funding for a construction management service to monitor construction for the FPCC. The current estimate of all fee associated with the issuance of this License is **\$3,944,795** as indicated below. However, due to the unique size and scope of this project these numbers may change based upon the length, size and duration of the work being conducted by the Grantee.
