The mitigation measures were negotiated as part of an environmental assessment of the impact of the proposed federally funded transit project on public recreation and wildlife resources.

The land parcels to be donated are currently owned by the City of Chicago but are anticipated to be conveyed to the CTA under a separate agreement to be approved by the Chicago City Council in November 2023. An Ordinance regarding the subject parcels is the subject of a separate Board Item No. 23-0515. The \$250,000.00 payment to the Forest Preserves for ecological restoration for habitat enhancement and beautification of expanded Beaubien Woods Boat Launch land will encourage use and enjoyment by community residents and visitors arriving by public transit. The trail connection to be constructed by the Forest Preserves and reimbursed by the CTA will connect other public open space and recreation facilities on 133rd Street serving the Altgeld Gardens community with a new river-edge public gathering space completed by partner organizations. Final intergovernmental agreement is subject to legal review and approval.
