Chicago IL This animal deserves so much better: much, much larger enclosure and companionship. Ideally, a wildlife refuge. This weekend with sub-zero temperatures the coyotes water bowl was frozen solid. The poor animal was licking the ice trying to drink water. Reputable sanctuaries use heaters to keep an available water source for the animals. This situation is cruel and totally unacceptable! Glenview IL Let this coyote go to the sanctuary please. This coyote deserves a much better life than he has endured the past 4 years. Well-meaning, perhaps, but inhumane. Please move this defenseless animal to the sanctuary!! Schaumburg IL Coyotes should not be kept in captivity! Free Him/Her. When I was a child I saw gorillas living in what looked like prison cells. Now, more than 50 years later, I see that the River Trail Nature Center is still treating animals the same way. His situation isn't educating anyone about anything other than the arrogance and ignorance of humans. I saw this coyote on 1-9-2022 and thought it was cruel to be caged
