

**EFFICIENCY REPORT FOR THE
FOREST PRESERVE DISTRICT
OF COOK COUNTY**

**APPROVED BY THE FOREST PRESERVE DISTRICT'S
COMMITTEE ON LOCAL GOVERNMENT EFFICIENCY
ON _____ [INSERT DATE]**

I. Purpose

The Forest Preserve District of Cook County (“Forest Preserve District”) formed its Committee on Local Government Efficiency on April 25th, 2023, to study efficiencies and report recommendations regarding those efficiencies and increased accountability pursuant to 50 ILCS 70/1, *et seq.* (the “Committee”).

II. Committee Membership

The Committee consisted of the following individuals:

Commissioner Scott Britton, Chairman

Commissioner Frank J. Aguilar

Commissioner Alma Anaya

Mr. Alan Bell

Commissioner John P. Daley

Commissioner Dennis Deer

Commissioner Bridget Degnan

Commissioner Bridget Gainer

Commissioner Monica Gordon

Commissioner Bill Lowry

Commissioner Donna Miller

Commissioner Stanley Moore

Commissioner Josina Morita

Commissioner Kevin B. Morrison

Commissioner Sean M. Morrison

Commissioner Anthony Quezada

Interim General Superintendent Eileen Figel

Commissioner Tara Stamps

Mr. Mark Templeton

Commissioner Maggie Trevor

III. Committee Meetings

The Committee met as follows:

Meeting Date and Time	Meeting Place
May 23 rd , 2023	Sagawau Environmental Learning Center 12545 West 111th Street, Lemont, IL
December 12 th , 2023	Room 569, Cook County Building 118 North Clark Street, Chicago, IL
July 23 rd , 2024	Thatcher Woods Pavilion, 8030 Chicago Avenue, River Forest, IL

Public Surveys: Per the 50 ILCS 70/20, “[a]t the conclusion of each meeting, the committee shall conduct a survey of residents who attended asking for input on the matters discussed at the meeting. A survey conducted via email to all residents who attended the meeting and provided a valid email address will be sufficient to satisfy the requirements of this paragraph.”

- May 23, 2023 meeting: For the May 23rd meeting, an email with survey questions was planned for those who signed up at the meeting to receive the survey and for those who signed up for public comment. There were no signups for either, so no survey results from the first meeting of the Decennial Committee.
- December 12, 2023 meeting: For the December 12 meeting, an email with survey questions was available for those who signed up at the meeting to receive the survey and for those who signed up for public comment. There were no signups for either, so no survey results were collected from the second meeting of the Decennial Committee.
- July 23rd, 2024 meeting: For the July 23 meeting, an email with survey questions was available for those who signed up at the meeting to receive the survey and for those who signed up for public comment. There were no signups for either, so no survey results were collected from the third meeting of the Decennial Committee.

Minutes of these meetings are available on the Forest Preserve District’s website via the following link: <https://fpdcc.legistar.com/Calendar.aspx>.

IV. General Overview of Governing Statutes, Ordinances, Rules, Procedures, Powers, Jurisdiction

Mission

“To acquire, restore and manage lands for the purpose of protecting and preserving public open space with its natural wonders, significant prairies, forests, wetlands, rivers, streams, and other landscapes with all of its associated wildlife, in a natural state for the education, pleasure and recreation of the public now and in the future.” (Source: <https://fpdcc.com/about/mission-history/>)

Background

“On November 3, 1914, the residents of Cook County voted in favor of establishing a forest preserve district whose boundaries would be analogous to the boundaries of Cook County. The Forest Preserve District of Cook County (generally referred to herein as the Forest Preserves of Cook County or Forest Preserves) was established on November 30, 1914 and the first meeting of the Board of Forest Preserve Commissioners was February 11, 1915.

On June 25, 1916 the first lands were obtained—500 acres of what is now known as [Deer Grove](#)—and by the end of the 1930s, the Forest Preserves held a total area of 33,000 acres. During this time, the Forest Preserves also worked to expand services for patrons. By 1920, the Forest Preserves created a special “Golf Committee” charged with setting aside land for golf courses and hiring concessionaires to serve golfers, and by the early 1930s, the Forest Preserves had begun construction on roads, walking trails and recreational facilities.

During the Depression, the influx of funds and labor through the New Deal’s Civilian Conservation Corps, Public Works Administration, and the Works Progress Administration increased the pace of these improvements. In the [WPA Guide to Illinois, The Federal Writers’ Project Guide to 1930s Illinois](#), the authors wrote, “Within [the Cook County Forest Preserves] lie more than 150 miles of hiking trails, 40 miles of bridle paths, and special facilities ranging from ski and toboggan slides to swimming pools. Only a few minutes out of the city, they are extensively used by picnickers, hiking and nature study clubs, and those merely seeking a brief respite from the roar and clamor of the metropolis.”

In 1934, the [Chicago Zoological Society opened the Brookfield Zoo](#) on land donated to and purchased by the Forest Preserves, and in 1972 the [Chicago Horticultural Society opened the Chicago Botanic Garden](#) on Forest Preserves land in Glencoe. Both the Zoo and Garden remain close partners with the Forest Preserves, which helps support the institutions and shares their mission of preserving and providing education about the natural world.

The Zoo grounds are located on 216 acres and include outdoor and indoor habitats for a vast array of animals, some of which are critically endangered. With its world-renowned plant collections and displays, the Garden is one of the most visited public gardens in the world. Both are preeminent centers for learning and scientific research.

Over the decades, as the scientific community’s understanding of native ecosystems evolved, the Forest Preserves has also expanded its commitment to protecting and [restoring the habitats in our](#)

[care](#). After World War II, the Forest Preserves created the Department of Conservation (now the Department of Resource Management), influenced by [Aldo Leopold's land ethic](#), which outlines the human responsibility to the natural world. [The first prairie restoration](#) was implemented at Camp Sagawau in 1965, and in 1996 the Forest Preserves helped found Chicago Wilderness, a coalition dedicated to protecting nature in the region.

In 2014, the Forest Preserves released the [Next Century Conservation Plan](#) (NCCP), an ambitious blueprint for making Cook County a national leader in urban conservation. The NCCP calls for massive restoration and expansion of protected lands, as well as a commitment to making the preserves more accessible to the diverse people of Cook County. The following year, the Forest Preserves released the [Natural and Cultural Resources Master Plan](#), which provides the guidance needed to implement the NCCP's natural resource goals. It also lays out a natural and cultural resources framework for future land acquisition, recreation development and capital improvement.

Much has changed in the more than 100 years that the Forest Preserves has been serving the residents of Cook County, but we continue our commitment to the county's natural wonders and the "education, pleasure and recreation of the public now and in the future." (Source: <https://fpdcc.com/about/mission-history/>) .

Governance

Statutory Framework

The Forest Preserves is governed by its enabling statute, 70 ILCS 810/0.01 et. seq. There are other Illinois statutory provisions applicable to the Forest Preserves, such as, without limitation, the Illinois Pension Code, Property Tax Extension Limitation Law, and Forest Preserve District and Conservation District Design-Build Authorization Act.

Board of Commissioners

The Forest Preserves of Cook County is governed by the President and its Board of Commissioners. Per 70 ILCS 810/5, "[t]he county board of commissioners of the county in which a forest preserve district is located shall be the forest preserve district board of such district and the president of the county board shall be the president of the forest preserve district board. The members shall act without any other pay than that already provided by law." Thus, the elected President and seventeen (17) commissioners of the Cook County Board of Commissioner are by virtue of their offices also the President and Board of Commissioners for the Forest Preserves of Cook County. Commissioners must reside within the boundaries of their district. The President and Commissioners are elected for their Cook County offices every four (4) years, with the next election to be held in 2026. Upcoming meetings of the Forest Preserves of Cook County Board of Commissioners are available [here](#). The Board operates subject to the requirements of the Illinois Open Meetings Act.

Tax Structure

The Forest Preserves of Cook County is a separate and distinct taxing body within Cook County (see 70 ILCS 810/22). Because the Forest Preserves of Cook County is a separate unit of local government, the revenues it generates can only be used for Forest Preserves of Cook County

purposes. This assurance is contrasted with general purpose governments like cities, villages, and counties that provide a multitude of services such as fire, public works, economic development, etc.

Referendum

In November of 2022, Cook County voters authorized a 0.025% increase in the preserves' property tax levy, raising an additional \$40 million to be used to expand and improve the benefits of the Forest Preserves, including the following:

- Acquire and protect more natural open land for the enjoyment of generations to come.
- Protect and restore wildlife habitat that is home to native plants and animals, some of which are threatened or endangered.
- Increase programs and events for the public and schools, including more outreach to communities from every part of Cook County.
- Expand and maintain trails, improve signage, and make amenities more energy efficient and accessible to all.
- Resolve the Forest Preserves' pension shortfall.
- Address the deferred capital needs of the [Brookfield Zoo](#) and [Chicago Botanic Garden](#).

Good Governance and Best Practices

The Forest Preserves receives an estimated 62 million visits each year, providing an escape into a world teeming with wildlife and rich with [outdoor recreation](#) and [environmental education opportunities](#)¹. As part of good governance and implementing best practices in the management of day-to-day operations, the Forest Preserves has adopted the following ordinances, rules, policies, and procedures:

- General Operations:
 - [Code of Ordinances](#), including, without limitation, the following:
 - Board Rules
 - Ethical Conduct
 - Use of Cook County Office of the Independent Inspector General
 - Ordinance Enforcement
 - Vehicle Steering Committee Rules
 - Establishment of Conservation and Policy Council

V. List of Shared Services and Partnerships

The Forest Preserves, through its Conservation & Experiential Programming (CEP) department makes great strides to partner with community organizations, schools, parks and other entities. CEP works with hundreds of new and repeat partners every year in a variety of ways. We count many collaborations and partnerships all with the goal of connecting the people of Cook County and beyond to nature. We support partners in many ways including event and programming partnerships, funds, transportation to Forest Preserves events and programs, and education permits for spaces in Forest Preserves so groups can independently host their own programs and activities.

In 2022 we had 530 partnerships recorded. Below are several lists that show examples of partnerships, programs and engagement activities.

1. Sampling of groups who have partnerships and/or collaborations with the Forest Preserves. These orgs bring out groups. Come to our sites and/or are actively planning and programming at Forest Preserves events
2. Groups who received a Nature Express Bus for a group to come to a Forest Preserve site, the Chicago Botanic Garden or to the Brookfield Zoo
3. Applied for and receive Education Permits

4. A list of partnership tools we use to invite people to be active with us in connecting their community to nature.

Forest Preserves of Cook County Engagement Partners:

1. Acero de la Cruz School, Chicago – Mighty Acorn School
2. Adaptive Adventures
3. Advocate Aurora Health Services
4. Alliance for Early Childhood
5. Altgeld Gardens LAC/CHA
6. American Indian Center
7. American Indian Health Services
8. Association House
9. Bach to Rock
10. Back Yard Nature Center
11. Barrington School District
12. Bellwood School District 88
13. Bernard Zell Academy
14. BSA (various groups)
15. Chicago Academy – Mighty Acorns
16. Chicago Adventure Therapy
17. Chicago Agriculture High School
18. Chicago Botanic Garden
19. Chicago Police Department District 4
20. Chicago River Canoe and Kayak
21. Chicago Voyager
22. Chicago Zoological Society
23. Clemente Acero – Mighty Acorn School
24. Cub Scouts (Various Troops)
25. Des Plaines River Canoe and Kayak Marathon
26. East Side Chamber of Commerce
27. Elk Grove Bike Shop
28. Elk Grove Public Library
29. Faith in Place
30. Field Museum
31. Filament Theater
32. Forest Schools for Illinois
33. Friends of Chicago River
34. Friends of the Forest Preserves
35. Get Hooked
36. Gigi Tonye' Arts and Fitness
37. Izaak Walton League
38. Girl Scouts (various Troops)
39. Glenview Youth Services
40. Harper College
41. ICNA (Islamic Circle of North American) - Chicago

42. IKES
43. Illinois Department of Natural Resources – ENTICE program
44. Illinois Paddling Council
45. Illinois Science Teaching Association
46. Imani Village
47. Indo-American Center
48. ISteam
49. Izaak Walton League
50. Kaleidoscope: Foster Care Group
51. Kellogg School – Might Acorns
52. Kenwood Academy
53. Korean Performing Arts Center
54. La Casas – Mighty Acorns
55. Lemont High School
56. Light of Loving Kindness
57. Little Bits Workshop
58. Little Calumet Underground Rail Road Project
59. Little City Foundation
60. Major Taylor Trail Bike Club
61. Mandala Arts
62. Mighty Acorn Regional Group – family campout
63. Misericordia
64. Moraine Valley Community College
65. Najwa Dance Company
66. Near North Montessori
67. Neighborspace
68. NEIU
69. Nilas Main Public Library
70. Northwest Special Recreation Association
71. Oak Park River Forest High School
72. Openlands
73. Opportunity Knocks
74. Out Our Front Doors
75. Outdoor Afro
76. Palos Park Village Parks and Rec
77. Polonia Polish Folk Song and Dance Ensemble
78. PP4H
79. REACH
80. Read & Run Chicago
81. Refugee Education & Adventure Challenge (REACH)
82. Seguin
83. Solorio Academy
84. Southeast Youth Alliance
85. Southeast Environmental Task Force
86. Special Olympics Chicago
87. Summit School District

88. Tamayo Elementary School – MA
89. TCA Health
90. The Seldoms Dance Company
91. Trail Bound Trips
92. Trickster Gallery and Cultural Center
93. U of I 4H
94. U of I Extension
95. We Keep You Rollin’
96. Westchester Public Library
97. Wilderness Inquiry
98. Willow Springs School District
99. Xochitl-Quetzal Aztec Dance

Nature Express Bus to Forest Preserves or Chicago Botanic Garden or Brookfield Zoo

1. Heartland Alliance Refugee Health
2. Prospect Heights Park District
3. Chavez School
4. Heartland Health Outreach
5. Back of the Yard Prep School
6. Parview Seniors
7. Garden House
8. Tu Casa Guanajuato en Chicago
9. Oak Lawn Garden Club
10. Refugee Community Connection
11. The Learning Center
12. Goethe School

Education Permits

1. Advocate Christ Medical Center
2. Advocate Christ Medical Center, South Suburban Hospital, & Trinity Hospital
3. CIMBY - CPS
4. Circle Ceremonies at Annual Equinoxes & Solstices
5. Circle Ceremonies at Annual Equinoxes & Solstices
6. DePaul College Prep
7. Elmwood Park High School
8. Field Museum
9. Friends of the Forest Preserves
10. Harper College
11. ICNA Relief + Crosstown Exotics

12. Kenwood Academy
13. Maine East High School
14. McAuley Hight School
15. Nettlehorst School
16. North Shore Country Day School
17. Northridge Prep School Bugs and Bunny Camp
18. Peggy Notebaert Nature Museum
19. Refugee Educaiton & Adventure Challenge
20. SAIC Environmental Chemistry Class
21. Saint Viator High School
22. Shedd Aquarium Summer Road Trip
23. Solorio Academy HS
24. St Viator Elementary School
25. Tinkgarten
26. University of Illinois Extension
27. Waters Elementary
28. We Keep You Rollin'
29. Wilderness Inquiry
30. WTTW Kids Learn and Play

Partnership Tools

1. Program Event and Partnership proposal process
2. Activity Request for Qualifications
3. Community Liaisons
4. Target Cultural Art/Food
5. Pop Up Challenge
6. Nature Express Application
7. Local Community Programs
8. Education Permits
9. School visits field trips and programs at schools
10. Gear Library
11. Community Leadership Partnerships
12. Experience.Nature email

Forest Preserves Engagement Activities

Public Programs at the Forest Preserves are held at Nature Centers, Campgrounds and other Forest Preserve locations. These programs are mostly free (some require a small fee to help cover expenses). Some of these program require registration and space can be limited. Activities include:

1. Walks
2. Arts in Nature
3. Birding
4. Camping

5. Large Events
6. Music and other performing Arts
7. Night Sky Programs
8. Story Telling
9. Seasonal
10. History
11. Archery
12. Restoration activities
13. Gardening
14. Teen Exploration Days
15. Out of School Time
16. Paddling
17. Family Camp Outs
18. Fire Programs
19. Snow Shoeing
20. Cross Country Skiing
21. Camping 101s

Special Events focus on the seasons, holidays, history, arts and cultural. These large events are at locations all over Cook County and are featured on our annual wall calendar. Some of these events are:

1. Martin Luther King Jr. Day of Service
2. Underground Railroad Hikes
3. Maple Syrup Festival
4. Spring Celebration
5. Spring Festival
6. Flower Festival
7. Earth Day
8. Arbor Day
9. Nature Block Party
10. Explore the Forest
11. Beaubien Woods Celebration
12. Juneteenth Celebration
13. Kids Fest
14. Outdoor Block Party
15. Back to School Adventure
16. Hummingbird Festival
17. Summer Bonfires
18. Art in Nature
19. Migrating Monarchs
20. Party for the Preserves (Public Lands Day)
21. Arts Fair
22. Fall Festival
23. Sand Ridge Heritage Days
24. Winter Bonfires
25. Holiday Past

26. Winter Solstice

Schools or other Organizations can contact the Forest Preserves for guided talks, walks and programs. FPCC primarily provides programming for school at its sites but can do some in school programs as well. FPCC's Mighty Acorns program is part of a regional initiative to develop environmental educators who use the outdoors as a classroom. The Mighty Acorns program is a five year program focused on grades 3-5. These activities include:

1. Field Trips (Lead by staff or self-lead)
2. In School Programs
3. Virtual Programs
4. Mighty Acorns Programs

Outreach Activities take the Forest Preserves to community sites and working in partnership with community leaders and agencies. The Forest Preserves can come to your event to promote your neighbors coming out to the Forest Preserves. We bring information and sometimes an activity to highlight what people may experience in the preserves. Some events that the Forest Preserves engage in are:

1. Health Fairs
2. Back To School Events
3. Farmers Markets
4. Job Fairs
5. Teen
6. Community Leadership Workshops
7. Teacher Training

Gear Library Trainings and Programs are an opportunity for group leaders to get trained in camping, paddling and hiking. Once trained and certified, these leaders can check out gear and take their group camping, kayaking or hiking. These programs include:

1. Camping Leadership Immersion Course
2. Greater Maywood Paddling Program
3. Day Hike Leader Training

The Forest Preserves runs a Conservation@Home program that encourages gardeners and other landowners to use forest friendly gardening techniques when managing their properties. Together with the University of Illinois Extension we host workshops, tabling events, a plant sale and a program where Cook County residents can get advice and their garden certified as a Conservation@Home garden. There are 166 gardens in Cook County certified as Conservation@Home. The Nature Conservancy Foundation started the Conservation@Home Program.

VI. Other Examples of Efficient Operations

Conservation Corps

Conservation Corps programs provide paid employment for youth and adult participants from across Cook County's diverse communities—including those with barriers to employment, those who have suffered from historical disenfranchisement, and those whose communities are disproportionately impacted by environmental justice issues. Conservation Corps programs

receive financial and/or training support from the Forest Preserves to engage the next generation of conservation leaders in hands-on ecological restoration work. Programs feature environmental education and soft skills training to prepare participants for future employment and connect communities to nature.

These programs engage approximately 300 participants annually. In 2023, a total of 289 participants logged over 57,108 service hours. Cumulatively, since 2005 the Conservation Corps have engaged 3,365 participants who have provided 795,208 service hours to the Forest Preserves.

Program partners

1. Friends of the Forest Preserves
2. The Student Conservation Association
3. Chicago Department of Transportation
4. Openlands
5. Audubon Great Lakes
6. Cook County Bureau of Economic Development
7. Forest Preserve Foundation
8. Housing Authority of Cook County
9. Americorps

Partnerships

Managing the Forest Preserves' nearly 70,000 acres of natural lands requires unprecedented levels of collaboration with other government agencies, contractors, public interest groups and community organizations. Over the past decade, we've forged hundreds of partnerships for cooperative land management, intergovernmental training, native seed enhancement, archaeological protection initiatives, and much more. Some of our most prominent partnerships have been in the field of wildlife research, including the Urban Coyote Research Project – North America's longest running urban coyote research program—and more recently the inaugural Illinois Zoological and Wildlife Health Management Residency program. Other partnerships have resulted in the development of major defining moments in the Forest Preserves' land management policies, such as the development of the Natural and Cultural Resources Master Plan, which initiated the comprehensive assessment and prioritization the Forest Preserves' open spaces.

1. Audubon Great Lakes
2. Barrington Countryside Park District
3. Bird Conservation Network
4. Bobolink Foundation
5. Buffalo Grove High School
6. Chicago Area Mountain Bikers
7. Chicago Botanic Garden
8. Chicago Park District
9. Chicago Region Trees Initiative

10. Chicago Zoological Society
11. Citizens for Conservation
12. City of Park Ridge
13. Cook County Department of Animal and Rabies Control
14. Field Museum
15. Forest Preserve District of Kane County
16. Forest Preserve Foundation
17. Friends of the Chicago River
18. Friends of the Forest Preserves
19. Hoffman Estates Fire Department
20. Illinois Department of Natural Resources
21. Illinois High School Association
22. Illinois Nature Preserves Commission
23. Illinois Prescribed Fire Council
24. Illinois State Archaeological Survey

Cooperative interagency training partnerships or exchanges

1. Hoffman Estates Fire Department
2. Morton Grove Fire Department
3. University of Wisconsin – Stevens Point
4. The Nature Conservancy
5. Illinois Department of Natural Resources

Premises Sharing

The Forest Preserves selectively issues licenses to share facility workspace with several other governmental entities. These mutually beneficial relationships promote intergovernmental collaboration and efficiency pertaining to natural and culture resource regulations and offer state conservation police a base from which to better enforce species-protection laws in our region.

Workspace/facility sharing partnerships

1. Illinois Department of Natural Resources
2. Illinois Nature Preserves Commission
3. Illinois State Archaeological Survey
4. North Cook Soil and Water Conservation District

Environmental Education Programs

The Forest Preserves coordinate and host a series of environmental education programs aimed at providing ongoing training and enrichment opportunities for staff. These programs feature a wide range of conservation topics, including equipment use, best management practices, and often provide continuing education units (CEUs) for upkeep of professional licenses or certifications. Certain programs are made available to volunteers, partners, and the public. In 2023, the Department of Resource Management hosted 244 programs reaching over 4,000 people. That number expands to 2,147 programs since 2015. Some of our common educational programming and training partners include:

1. Chicago Botanic Garden
2. Chicago High School for Agricultural Science
3. Chicago Region Trees Initiative
4. Illinois Arborist Association
5. Illinois Department of Agriculture
6. Morton Arboretum
7. National Weather Service
8. Peggy Notebaert Nature Museum
9. University of Illinois
10. University of Illinois Extension
11. West Cook Wild Ones

Program recipients and conferences

1. American Veterinary Medical Association Chicago

Research

The Forest Preserves feature wonderful natural habitats that support a wide variety of flora and fauna—including over one hundred threatened and endangered species. Our region is extremely biodiverse, making the Forest Preserves an ideal destination and natural laboratory for researchers studying nature in an urban environment.

Hundreds of students and scientists have focused their studies on Forest Preserves property or collaborated directly with the Forest Preserves to advance our knowledge of the natural world. Research investigations include any monitoring, collecting, testing, study, observation, investigation or other related activity that benefit the Forest Preserves, public education or the community.

The Forest Preserves, through its Conservation & Experiential Programming (CEP) department, makes great strides to partner with community organizations, schools, parks and other entities. CEP works with hundreds of new and repeat partners every year in a variety of ways. We count on many collaborations and partnerships to meet our goal of connecting the people of Cook County and beyond to nature. We support partners in many ways including event and programming partnerships, funds, transportation to Forest Preserves events and programs, and education permits for spaces in Forest Preserves so groups can independently host their own programs and activities.

The Conservation & Experiential Programming Department has over 500 recorded partnerships. Below are several lists that show examples of partnerships, programs and engagement activities.

Forest Preserves of Cook County Engagement Partners: a sampling of groups who have partnerships and/or collaborations with the Forest Preserves. These organizations bring out groups. Come to Forest Preserve sites and/or are actively planning and programming at Forest Preserves events.

24. Kenwood High School - 5015 S Blackstone Ave, Chicago
25. Feminist Bird Club Chicago - 2009 W Schiller St, Chicago

Education Permits

An Education Access Permit is required for all school/educational activities, such as class field trips, practices or other group education visits to a forest preserve or nature center, for all groups of 25 or more, and/or when requesting assistance from Forest Preserve staff. The Permit is granted for the day(s) of the field trip or activity. There is no fee for the Education Access Permit.

NeighborSpace

The Forest Preserves, along with the City of Chicago and the Chicago Park District, establish NeighborSpace as a non-profit in 1996 in order to preserve and expand open space for all residents in the city to enjoy. These founding groups charged the organization with the mission to acquire vacant lots and other properties to ensure their continued survival and use by community gardeners. These three governmental agencies continue to provide leadership and financial support to protect community-managed open spaces in Chicago. NeighborSpace is the only nonprofit urban land trust in Chicago that preserves and sustains gardens on behalf of dedicated community groups.

Community Gardens in the City of Chicago

Partnership Tools: These are the mechanisms for schools, NGOs and other groups to access the Forest Preserve resources through partnerships through the Conservation & Experiential Programming Department

1. Program Event and Partnership proposal process
2. Activity Request for Qualifications
3. Community Liaisons
4. Target Cultural Arts groups and food vendors

5. Pop Up Challenge
6. Nature Express Application
7. Local Community Programs
8. Education Permits
9. School and other group visits field trips and programs at schools
10. Gear Library
11. Camping Leadership Immersion Course
12. Greater Maywood Paddling Program
13. Day Hike Leader Training
14. Community Leadership Partnerships
15. Experience.Nature email

Forest Preserves Engagement Activities

Public Programs at the Forest Preserves are held at Nature Centers, Campgrounds and other Forest Preserve locations. These programs are mostly free (some require a small fee to help cover expenses). Some of these programs require registration and space can be limited.

1. Walks
2. Arts in Nature
3. Birding
4. Camping
5. Large Events
6. Music and other performing Arts
7. Night Sky Programs
8. Story Telling
9. Seasonal
10. History
11. Archery
12. Restoration activities
13. Gardening
14. Teen Exploration Days
15. Out of School Time
16. Paddling
17. Family Camp Outs
18. Fire Programs
19. Snow Shoeing
20. Cross Country Skiing
21. Camping 101s

Special Events

Focuses on the seasons, holidays, history, arts and culture. These large events are at locations all over Cook County and are featured on our annual wall calendar.

1. Martine Luther King Jr. Day of Service

2. Underground Railroad Hikes
3. Maple Syrup Festival
4. Spring Celebration
5. Spring Festival
6. Flower Festival
7. Earth Day
8. Arbor Day
9. Nature Block Party
10. Explore the Forest
11. Beaubien Woods Celebration
12. Juneteenth Celebration
13. Kids Fest
14. Outdoor Block Party
15. Back to School Adventure
16. Hummingbird Festival
17. Summer Bonfires
18. Art in Nature
19. Migrating Monarchs
20. Party for the Preserves (Public Lands Day)
21. Arts Fair
22. Fall Festival
23. Sand Ridge Heritage Days
24. Winter Bonfires
25. Holiday Past
26. Winter Solstice

Schools or other Organizations can contact the Forest Preserves for guided talks, walks and programs. FPCC primarily provides programming for schools at its sites but can do some in school programs as well. FPCC's Mighty Acorns program is part of a regional initiative to develop environmental educators who use the outdoors as a classroom. The Mighty Acorns program is a five-year program focused on grades 3-5.

1. Field Trips
2. Lead by FPCC staff
3. Self-Lead
4. In School Programs
5. Virtual Programs
6. Mighty Acorns Programs

Outreach Activities take the Forest Preserves to community sites and working in partnership with community leaders and agencies. The Forest Preserves can come to your event to promote your

neighbors coming out to the Forest Preserves. We bring information and sometimes an activity to highlight what people may experience in the preserves.

1. Health Fairs
2. Back To School Events
3. Farmers Markets
4. Job Fairs
5. Teen
6. Community Leadership Workshops
7. Teacher Training

Gear Library Trainings and Programs are an opportunity for group leaders to get trained in camping, paddling and hiking. Once trained and certified, these leaders can check out FPCC gear and take their group camping, kayaking or hiking.

1. Camping Leadership Immersion Course
2. Greater Maywood Paddling Program
3. Day Hike Leader Training

Conservation@Home

The Forest Preserves runs a Conservaton@Home program that encourages gardeners and other landowners to use forest friendly gardening techniques when managing their properties. Together with the University of Illinois Extension we host workshops, tabling events, a plant sale and a program where Cook County residents can get advice and their garden certified as a Conservation@Home garden. There are 166 gardens in Cook County certified as Conservation@Home. The Nature Conservancy Foundation started the Conservation@Home Program.

Our current code allows for us to participate with other municipalities and or purchasing consortiums that have publicly solicited opportunities, that being said we could not piggyback off of a sole source contract that the County has approved since it was not solicited.

Contracts and Purchases Section 1-8-2

AA; Consortium and Group Procurements: Procurements may be made pursuant to the district's membership or participation in a purchasing consortium, in order to obtain advantageous pricing and other efficiencies for the district. Procurements made through a purchasing consortium shall be approved and executed as set forth in this Procurement Code.

Common piggybacks are with the following:

1. Cook County

2. City of Chicago
3. Sourcewell
4. OMNIA Partners Group & Cooperative Purchasing
5. GSA: U.S. General Services Administration

VII. Transparency to the Community

Forest Preserves of Cook County: Transparency and Community Engagement

The Forest Preserves of Cook County is committed to open communication and transparency with Cook County residents. We believe a well-informed community is essential to the continued success of our mission to conserve natural landscapes and connect people with nature.

Performance Management Dashboard and Open Data

The Forest Preserves prioritizes data-driven decision making and public accountability. To that end, we have implemented a comprehensive performance management dashboard. This online resource provides residents with real-time access to key performance indicators (KPIs) that track our progress towards achieving the goals of the Next Century Conservation Plan. These KPIs include:

1. **Acres Under Active Restoration Management:** At the heart of the Forest Preserves' plan is an ambitious goal: the restoration of 30,000 acres of natural habitat including prairies, wetlands and woodlands.
2. **Forest Preserves Acres Acquired:** The plan calls for an expansion of the Forest Preserves to 90,000 total acres.
3. **People Engaged in Onsite Programs, Events & Activities:** Striving to increase engagement with nature, the objective is an annual involvement of 2 million visits through a variety of diverse onsite programs, events and activities at the Forest Preserves.
4. **People Engaged via Offsite Programs and Outreach Efforts:** The goal is to achieve 4 million yearly engagements via offsite Forest Preserves programs and activities, as well as online communications available to the diverse communities of Cook County.

Communication Channels and Engagement

The Forest Preserves utilizes a variety of communication channels to keep residents informed and engaged, including but not limited to, the following resources:

1. **Forest Way Newsletter:** Monthly newsletter featuring upcoming events, conservation news and stories about the Forest Preserves.
2. **Topic of the Month:** Access monthly media kits with in-depth information on relevant environmental topics.

3. **Social Media Networks:** Various social media platforms for the latest news, updates and opportunities in the Forest Preserves.
4. **Quarterly Guide:** This guide features events and opportunities across all of Cook County, publishing seasonally.
5. **Press Releases:** Monthly updates about important announcements and initiatives in the Forest Preserves.

Website Updates

The Forest Preserves website is a valuable resource for residents in Cook County. In 2023, we launched several new features, including:

1. **Prescribed Burn Map:** This interactive map allows residents to track the location and activity status of prescribed burns.
2. **Performance Management Dashboard:** Access real-time data on our progress towards achieving conservation goals.
3. **Fall Foliage Filter:** Plan your next visit with the assistance of a filter highlighting areas with peak fall colors.

Further website enhancements are planned, including upgraded event listings, departmental KPIs for specific programs and a champion tree registry.

Website Content

The FPDCC website offers wide array of features for visitors and residents:

1. Latest news and announcements.
2. Calendar of upcoming events and programs.
3. Interactive map of all Forest Preserves locations.
4. Detailed information on ecosystems and restoration projects.
5. Permit information for various activities within the Forest Preserves.
6. Volunteer opportunities to contribute to the conservation effort.
7. Contact forms for inquiries and feedback.
8. Web Map for interactive exploration of the Forest Preserves.

Contact Forms

The Forest Preserves hosts three public contact forms on fpdcc.com, including:

1. Contact: <https://fpdcc.com/contact>
2. Requests for New or Improved Facilities, Amenities & Infrastructure: <https://fpdcc.com/about/plans-projects/requests-for-new-or-improved-facilities-amenities-infrastructure/>

3. Event & Programming Partnerships: <https://fpdcc.com/about/doing-business-partnerships/programming-partnerships/>

The general contact form offers a means for the public to submit inquiries to Forest Preserve staff. Included in the form is a category dropdown, segmented by department/topic which automates responses to pre-selected recipients. The Forest Preserves aims to respond to inquiries in two business days.

We encourage you to visit our website and explore the wealth of information available. The Forest Preserves is committed to continuous improvement and welcomes your feedback on how we can better serve the community.

Financial Information

The Forest Preserves of Cook County is committed to financial transparency. Via its public website, the Forest Preserves makes available its annual Appropriation document and Annual Comprehensive Financial Report (ACFR) reviewed by independent auditors.

For 16 consecutive years, the Forest Preserves ACFR has received the Government Finance Officers Association's Certificate of Achievement for Excellence in Financial Reporting. This is the highest form of recognition in government accounting and financial reporting and represents a significant accomplishment by a local government.

The Forest Preserves' monthly Board and Committee meetings are open to the public. Members of the public have the opportunity to attend in person or online via the Forest Preserves website. During each meeting, members of the public are provided the opportunity to comment on Forest Preserves business. During the Forest Preserves annual budget process, special public hearings are held specifically geared towards providing an opportunity review and comment prior to the Board voting process. The results of all agenda items presented to the Board are made available on the Forest Preserves public facing legislative page.

VIII. Benefits and Services

The Forest Preserves receives an estimated 62 million visits each year, providing an escape into a world teeming with wildlife and rich with outdoor recreation and environmental education opportunities.

The Forest Preserves, through its Conservation & Experiential Programming (CEP) department makes great strides to partner with community organizations, schools, parks and other entities. CEP works with hundreds of new and repeat partners every year in a variety of ways. We count many collaborations and partnerships all with the goal of connecting the people of Cook County and beyond to nature. We support partners in many ways including event and programming partnerships, funds, transportation to Forest Preserves events and programs, and education

permits for spaces in Forest Preserves so groups can independently host their own programs and activities.

Public Programs at the Forest Preserves are held at Nature Centers, Campgrounds and other Forest Preserve locations. These programs are mostly free (some require a small fee to help cover expenses). Special Events focus on the seasons, holidays, history, arts and cultural. These large events are at locations all over Cook County and are featured on our annual wall calendar.

Schools or other Organizations can contact the Forest Preserves for guided talks, walks and programs. FPCC primarily provides programming for school at its sites but can do some in school programs as well. FPCC's Mighty Acorns program is part of a regional initiative to develop environmental educators who use the outdoors as a classroom. The Mighty Acorns program is a five-year program focused on grades 3-5.

Outreach Activities take the Forest Preserves to community sites and working in partnership with community leaders and agencies. The Forest Preserves can come to your event to promote your neighbors coming out to the Forest Preserves. We bring information and sometimes an activity to highlight what people may experience in the preserves.

Gear Library Trainings and Programs are an opportunity for group leaders to get trained in camping, paddling and hiking. Once trained and certified, these leaders can check out gear and take their group camping, kayaking or hiking.

The Forest Preserves runs a Conservation@Home program that encourages gardeners and other landowners to use forest friendly gardening techniques when managing their properties. Together with the University of Illinois Extension we host workshops, tabling events, a plant sale and a program where Cook County residents can get advice and their garden certified as a Conservation@Home garden. There are 166 gardens in Cook County certified as Conservation@Home.

Conservation Corps programs provide paid employment for youth and adult participants from across Cook County's diverse communities—including those with barriers to employment, those who have suffered from historical disenfranchisement, and those whose communities are disproportionately impacted by environmental justice issues. Conservation Corps programs receive financial and/or training support from the Forest Preserves to engage the next generation of conservation leaders in hands-on ecological restoration work. Programs feature environmental education and soft skills training to prepare participants for future employment and connect communities to nature. These programs engage approximately 300 participants annually. In 2023, a total of 289 participants logged over 57,108 service hours. Cumulatively, since 2005 the Conservation Corps have engaged 3,365 participants who have provided 795,208 service hours to the Forest Preserves.

Managing the Forest Preserves' nearly 70,000 acres of natural lands requires unprecedented levels of collaboration with other government agencies, contractors, public interest groups and

community organizations. Over the past decade, we've forged hundreds of partnerships for cooperative land management, intergovernmental training, native seed enhancement, archaeological protection initiatives, and much more. Some of our most prominent partnerships have been in the field of wildlife research, including the Urban Coyote Research Project – North America's longest running urban coyote research program—and more recently the inaugural Illinois Zoological and Wildlife Health Management Residency program. Other partnerships have resulted in the development of major defining moments in the Forest Preserves' land management policies, such as the development of the Natural and Cultural Resources Master Plan, which initiated the comprehensive assessment and prioritization the Forest Preserves' open spaces.

The Forest Preserves selectively issues licenses to share facility workspace with several other governmental entities. These mutually beneficial relationships promote intergovernmental collaboration and efficiency pertaining to natural and culture resource regulations and offer state conservation police a base from which to better enforce species-protection laws in our region.

The Forest Preserves coordinate and host a series of environmental education programs aimed at providing ongoing training and enrichment opportunities for staff. These programs feature a wide range of conservation topics, including equipment use, best management practices, and often provide continuing education units (CEUs) for upkeep of professional licenses or certifications. Certain programs are made available to volunteers, partners, and the public. In 2023, the Department of Resource Management hosted 244 programs reaching over 4,000 people. That number expands to 2,147 programs since 2015.

The Forest Preserves feature wonderous natural habitats that support a wide variety of flora and fauna—including over one hundred threatened and endangered species. Our region is extremely biodiverse, making the Forest Preserves an ideal destination and natural laboratory for researchers studying nature in an urban environment. Hundreds of students and scientists have focused their studies on Forest Preserves property or collaborated directly with the Forest Preserves to advance our knowledge of the natural world. Research investigations include any monitoring, collecting, testing, study, observation, investigation or other related activity that benefit the Forest Preserves, public education or the community. Staff in the Department of Resource Management additionally host field practicums for college and high school students on the topics of wildlife research, prescribed fire, and advanced aquatic ecosystems. These programs allow students to work alongside the Forest Preserves' biologists to gain hands-on training and field experience.

Last year, the Forest Preserves recorded 21,443 volunteer engagements which in turn logged 98,487 hours of volunteer service to the Forest Preserves.

The Forest Preserves, along with the City of Chicago and the Chicago Park District, establish NeighborSpace as a non-profit in 1996 in order to preserve and expand open space for all residents in the city to enjoy. These founding groups charged the organization with the mission to acquire vacant lots and other properties to ensure their continued survival and use by

community gardeners. These three governmental agencies continue to provide leadership and financial support to protect community-managed open spaces in Chicago. NeighborSpace is the only nonprofit urban land trust in Chicago that preserves and sustains gardens on behalf of dedicated community groups.

The Forest Preserves of Cook County is committed to open communication and transparency with Cook County residents. We believe a well-informed community is essential to the continued success of our mission to conserve natural landscapes and connect people with nature. The Forest Preserves prioritizes data-driven decision making and public accountability. To that end, we have implemented a comprehensive performance management dashboard. This online resource provides residents with real-time access to key performance indicators (KPIs) that track our progress towards achieving the goals of the Next Century Conservation Plan.

The Forest Preserves utilizes a variety of communication channels to keep residents informed and engaged, including a website with an interactive map listing all of the amenities that the Forest Preserves provide. The map can be found at map.fpdcc.com.

The Forest Preserves of Cook County is committed to financial transparency. Via its public website, the Forest Preserves makes available its annual Appropriation document and Annual Comprehensive Financial Report (ACFR) reviewed by independent auditors. For 16 consecutive years, the Forest Preserves ACFR has received the Government Finance Officers Association's Certificate of Achievement for Excellence in Financial Reporting. Below is a list of amenities that the Forest Preserves provides:

1. Algonquin Woods
2. Allison Woods
3. Andrew Toman Grove
4. Arie Crown Forest
5. Arrowhead Lake
6. Axehead Lake
7. Bachelor's Grove Woods
8. Baker's Lake Nature Preserve
9. Baker's Lake Overlook
10. Baker's Lake Younghusband Prairie

11. Barrington Road Pond
12. Bartel Grassland Land and Water Reserve
13. Beaubien Woods
14. Beaubien Woods Boat Launch
15. Beck Lake
16. Belleau Lake
17. Belly Deep Slough
18. Bemis Woods-North
19. Bemis Woods-South
20. Bergman Slough Land & Water Reserve
21. Beverly Lake
22. Big Bend Lake
23. Billy Caldwell Golf Course
24. Black Partridge Woods
25. Black Partridge Woods Nature Preserve
26. Blandings Grove Family Picnic Area
27. Blue Beech Family Picnic Area
28. Blue Star Memorial Woods
29. Bluff Spring Fen
30. Bluff Spring Fen Nature Preserve
31. Bobolink Family Picnic Area
32. Bobolink Meadow Land & Water Reserve
33. Bode East
34. Bode Lake
35. Bremen Grove
36. Brezina Woods
37. Brookfield Woods
38. Brookfield Zoo
39. Brownell Woods
40. Buffalo Woods Family Picnic Area
41. Buffalo Woods-Central
42. Buffalo Woods-North
43. Buffalo Woods-South
44. Bullfrog Lake

IX. Recommendations for Increased Accountability and Efficiency

The Forest Preserves of Cook County is dedicated to the principles of government transparency and efficient use of taxpayer dollars. In 2022, voters showed their trust in the Forest Preserves to adhere to these good government principles by overwhelmingly voting to increase their own property taxes to provide the Forest Preserves with additional revenue.

Below is a list of recommendations that would increase the accountability and efficiency of the Forest Preserves of Cook County:

1. Allowing more time to provide a response to FOIA requests
2. Limiting unfunded mandates placed on the Forest Preserves
3. Restricting applicants with certain criminal backgrounds from working with children
4. Creation of a state agency that provides local governments with administrative services, such as cybersecurity and payroll
5. Creation of a local government grant clearinghouse that lists all available grants to local governments and creates a standardized application process
6. Refining strategies to reduce the amount of paper used without impacting operational efficiency
7. Allowing the units of local government to directly levy to other funds, such as real estate
8. Tying the levy year to the subsequent budget year
9. Penalizing transportation agencies if they do not maintain their rights-of-way and allow debris to end up in the Forest Preserves
10. A concerted effort by the state and federal government to reduce the cost of electric vehicles for local government agencies
11. The creation of an authority to create a regional plan for prescription fire and weed control
12. Limiting the availability of invasive species for the public to purchase

X. Other

Below is a select list of awards and honors presented to the Forest Preserves of Cook County and its employees, partners and collaborators over the past 10 years.

2024:

The Forest Preserves of Cook County’s Youth Outdoor Ambassador Program received a *Project Excellence Award* from the **Society of Outdoor Recreation Professionals**. The award is presented annually at the National Outdoor Recreation Conference to exemplary outdoor recreation projects.

2023:

The Forest Preserves of Cook County nominated partner organization Friends of the Forest Preserves for the **National Association of County Park and Recreation Officials Award Program** in the Friends of Parks and Recreation category in which they were selected as an *Outstanding Support Organization*, presented to an organization that has made a significant contribution to benefit park and recreation programs, facilities, operations or organizational support.

The Forest Preserves of Cook County's **Racial Equity, Diversity and Inclusion Committee** received an award from the **National Association of Counties** in the *Personnel Management, Employment and Training* category for demonstrating strategic ways to recruit county employees, encourage professional development and maintain a first-class workforce.

The Palos and Sag Valley Restoration received a *Silver Ribbon* from the **Chicago River Blue Awards** for supporting a thriving Chicago and Calumet River system that is clean, ecologically healthy, and accessible to all and contributes to resiliency for people across the region.

Retired Chief Financial Officer, **Stephen Hughes**, was recognized as a *2023 Crain's Chicago Business Notable CFOs* for chief financial who led their companies through COVID and continued to handle pandemic-related financial situations including navigating supply chain disruptions and labor challenges by managing relief funds to cushion the blow of revenue declines and the burden on employees.

Nancy Joseph received an *Outstanding Citizen Volunteer Award* from the **Illinois Association of Park Districts' Best of the Best Awards Program** for her dedication and commitment as a Site Steward at Sand Ridge Nature Center in South Holland, IL.

The Forest Preserves of Cook County, the Chicago Zoological Society and the University of Illinois College of Veterinary Medicine, received a *Partnership Award* from the **Illinois Association of Park Districts' Best of the Best Awards Program** for their collaboration on the Illinois Zoological and Wildlife Health Management Residency Program.

Cathy Geraghty, Director of Strategic Initiatives for the Forest Preserves of Cook County, received a *Force of Nature Award* from the **Chicago Wilderness Alliance** as one of the region's most ardent champions of biodiversity and an advocate for nature who focuses on building partnerships and spearheading collaborative initiatives to protect and preserve open space for the people of Cook County.

Raquel Garcia-Alvarez and Xochitl Lopez, Site Stewards at Possum Hollow Woods forest preserve, received a *Force of Nature Award* from the **Chicago Wilderness Alliance** for their work to engage Latino communities and building a culture that includes both Spanish and English speakers in caring for nature.

The Forest Preserves of Cook County's Youth Outdoor Ambassador program received a *Force of Nature Award* from the **Chicago Wilderness Alliance** for its successful strategies to engage youth. The Youth Outdoor Ambassador program, which has grown and evolved since it began in 2014, uses a peer-to-peer engagement strategy that has been successful in forging the next generation of advocates, stewards and conservationists for nature.

2022:

Jenny Flexman received the *Outstanding Citizen Volunteer Award* from the **Illinois Association of Park District's Best of the Best Awards Program** for her dedication and commitment to restoring native habitats in northwest Cook County as a founding member of the Poplar Creek Prairie Stewards. Jenny leads by example and inspires others to protect and care for natural areas.

Beaubien Woods Gathering Space received an *Arts in the Park Award* from the **Illinois Association of Park Districts** for a community-designed integration of art and culture intended to be a convening ground and rest area for people exploring Beaubien Woods.

St. Charles Park District with the Illinois Nature Preserve Commission in cooperation with the Forest Preserve District of Kane County, Forest Preserves of Cook County and McHenry County Conservation District received the *Intergovernmental Award* from the **Illinois Association of Park Districts** for providing native seed to a fen restoration project.

The Palos Preserves Urban Night Sky Place received a *Park and Recreation Facility – Class IV Category Award* from the **National Association of County Park and Recreation Officials** which recognizes excellence in park and recreation areas, recreation facilities, and operational facilities for population service areas of over 500,001.

The Palos Preserves Urban Night Sky Place received the *Innovation in Conservation Award* from the **National Recreation and Park Association** which recognizes a park and recreation agency leading an innovative project that creates localized solutions for addressing global or regional environmental challenges.

The Greater Maywood Paddling Program received a *Park and Recreation Achievement Award* from the **National Association of Counties** which seeks to recognize innovative county government programs.

General Superintendent, Arnold Randall, was selected as a *Legend* in the field of parks and recreation by the **American Academy for Park and Recreation Administration**.

Partner organization **Friends of the Chicago River** received the *President's Fishery Conservation Award* from the **American Fisheries Society** for playing an active and important role in a wide variety of issues for aquatic resource conservation, including many projects and initiatives with the Forest Preserves.

2021:

The Forest Preserves of Cook County's Cranberry Slough Nature Preserve received a *Platinum Accreditation* from the **Chicago Wilderness Excellence in Ecological Restoration Program**. This 380-acre site is distinguished by its peat bog, remnant woodland, oak savanna,

and natural prairie communities and it contains glacial kettlehole depressions that support vernal ponds, marsh, and sedge meadow habitats.

The Forest Preserves of Cook County's Greater Maywood Paddling Program received a *Force of Nature Award* from the **Chicago Wilderness Alliance** which recognizes individuals and organizations whose conservation, restoration, advocacy or educational activities in the region are inspirational examples for others.

The Wildlife Connections Ambassador Program received a *Removing Barriers Initiative Award* from the **National Association of County Park and Recreation Officials** for creating opportunities for adults with developmental disabilities to deliver nature programming to school groups and visitors to River Trail Nature Center.

The Forest Preserves' Racial, Equity, Diversity and Inclusion Committee received a *Social Justice Award* from the **National Association of County Park and Recreation Officials** for demonstrating an outstanding commitment to social justice through leadership and collaboration.

Kathy and Dave Branigan received the *Outstanding Citizen Volunteer Award* from the **Illinois Association of Park Districts' Best of the Best Awards Program** for their dedication and commitment to volunteering in many roles with the Forest Preserves. Their volunteer activities include trail watch, wildlife and plant monitoring, environmental education, habitat restoration and more.

General Superintendent Arnold Randall was honored with the *Cornelius Amory Pugsley Medal for Parks and Conservation* from the **American Academy for Park and Recreation Administration**. This prestigious award recognizes outstanding contributions to the promotion and development of public parks and conservation in the United States.

The Forest Preserves' **Interactive Web Map** received a *Technology Innovation Award in the Citizen Category* from the **Special Districts Awards Program** sponsored by AT&T and Government Technology magazine. The award program recognizes innovation and leadership within special district agencies across the country.

The Forest Preserves' **Rolling Knolls** building located in Elgin, IL received the *Honor Award for Design Excellence in High-Performance Buildings* from the **American Institute of Architects in Illinois** and co-sponsored by **Illinois Green Alliance** which is awarded to buildings that exceed code-minimum energy performance and do not burn fossil fuels. The AIA Illinois Honor Awards recognizes people and projects epitomizing the contributions of the architecture profession, the transformative power of design, and the dedication of individuals to service and excellence.
