

Resident Watchman Annual Report

For the year 2017

I. **PROGRAM CHANGES.** For the year 2017 there were no programmatic changes made to the Resident Watchman Program.

II. **PROGRAM MONITORING.** There was a minimum of one internal physical walk through of each residence, and in many cases two or more visits and inspections were conducted as well as multiple inspections of Watchman assigned boundary areas and external property inspections. These inspections ensure all Watchmen are maintaining their respective residences and are performing assigned duties.

III. **FEE COLLECTIONS.** Occupancy Fees are the payments made by Resident Watchmen for occupying the residence. All Resident Watchmen enter an Occupancy Agreement similar to a lease and Occupancy Fees are deducted via automatic Payroll Deductions to cover the cost of maintenance and repairs. Fees collected in 2017 were \$222,997, a slight increase of \$3,500 from the 2016 amount collected of \$219,497. Although there was turnover of five houses, the residences were occupied for a longer period of time in 2017. Both 2016 and 2017 ended with 31 Resident Watchmen,

IV. **PROGRAM EXPENSES.** The expenses to cover the costs for the Resident Watchman program come from the Occupancy Fees paid by the residents. These are not funds that could otherwise be allocated. Expenses related to the program in 2017 were \$198,149. This is a decrease in expenditures of \$18,965 from 2016. In 2016 expenses were \$217,114. 2017 expenses included asbestos removal, repairs for electrical, plumbing and HVAC systems, replacing flooring, windows, roofs, installing insulation and other physical structural repairs. Watchman Residences are in better shape than before, but there remains a significant amount of deferred structural and mechanical maintenance and repairs, such as several more HVAC systems, new roofs, siding, windows, insulation, tuck-pointing, etc. for several of the residences. The District once again expects the 2018 Annual Report to reflect the entire or near entire budget to be spent on repairing and maintaining the residences. These expenditures are to be paid out of the housing fees collected by the FPCC from the Resident Watchman living in a Resident Watchman house.

V. **OCCUPIED RESIDENCES & VACANCIES.**

As of December 31, 2017, the District maintained 45 Resident Watchmen residences. This number is unchanged from the December 31, 2016 number of 45 residences. 2017 started with 31 Resident Watchmen, and ended the year with 31 Resident Watchmen.

There are three types of residences:

- 1) Attached apartments– defined as an apartment physically attached to a District facility. There are ten (10) Attached apartments. At the start of 2017, nine (9) were occupied, at the end of 2017; nine (9) were occupied, leaving one vacancy.
- 2) Adjacent houses – defined as a house located at a District facility – for example a Nature Center or maintenance facility. There are fourteen (14) Adjacent Houses. At the start of 2017, 12 were occupied, at the end of 2017 12 were occupied, leaving two vacancies.
- 3) Free Standing– defined as a stand-alone house not located at a District facility. The District typically acquires these houses as part of a larger land purchase where the house was part of the parcel purchased. There are twenty one (21) Free Standing houses. At the start of 2017, ten (10) were occupied; at the end of 2017 ten (10) were occupied, leaving 11 vacancies.

	Occupied	Vacant	Total
Attached	9	1	10
Adjacent	12	2	14
Free Standing	10	11	21
Total	31	14	45

Please see Attachment B for a list of Watchmen and facilities.

VI. **WATCHMEN ACTIVITY.** Watchmen are required to sit “Fire Watch” on weekends where conditions for fires are heightened, and to conduct visual inspection of assigned boundaries surrounding the residence they reside in. Certain locations may also be called on for snow removal /snow plowing when conditions require.

Resident Watchmen also submit twice a month a “Resident Watchman Bimonthly Report”, which categorizes their activity as watchmen. The categories that are reported on consist of “Fires”, “Encroachments”, “Hunting”, “Debris”, “Graffiti/Vandalism”, “Missing Signs”, “Tree/Branch Removal”, “Citizen Assist”, and “Other” which may include such things as snow removal / snow plowing, reporting a car accident to 911, noticing lights on in a facility after hours or looking for anything out of the ordinary that might require a police inspection or visit.

Fires consists of calling in fires and responding to fires after designated work hours. Branch removal consists of reporting trees or large limbs down where it will impact the general public, and the removal of trees and large limbs down where it will impact the public, performed after designated work hours. 2017 saw an increase in certain categories such as “Fires”, “Debris” and “Other”, while seeing a decrease in “Hunting” and “Citizen Assist” categories. 2017 stayed close to the 2016 reported instances in the remaining categories. Watchman Reports are available for review and a summary of the reports is included as Attachment A.
