RE: Letter of Support for Cook County Forest Preserve Building as part of the Very High Efficiency HVAC Pilot

To Whom It May Concern:

The ComEd Energy Efficiency Emerging Technologies Team has approved the selection of the Cook County Forest Preserve Building to participate in the ongoing Very High Efficiency HVAC Pilot.

Our team excited to bring this Energy Efficiency Technology opportunities to applicable buildings within ComEd's service territory. For the Cook County Forest Preserve Building, the Emerging Technologies Team is offering an \$300k incentive to support an installation of a such a system in 2022.

We look forward to the results of this project utilizing the findings to design and support future Energy Efficiency Offerings to our customers.

Sincerely,

Steven LaBarge
