**Contract Period:** 1/1/2023 - 12/31/2023, with four (4) one-year extension options to be exercised at the discretion of the General Superintendent or their designee

**Estimated Fiscal Impact:** Revenue generation of up to \$17,500.00 over five (5) years

**Accounts:** Corporate Land Use Fees 51001.411366 (revenue generating)

**Contract Number(s):** #74000011238 issued under Project #22 RM 115

**Concurrences:**

The Chief Financial Officer has approved this item. Final contract is subject to legal review and approval.

**District(s):** 17

**Summary:** The Forest Preserves has solicited a contract for row crop production at select sites which were historically used for agricultural purposes prior to acquisition by the Forest Preserves, and as such, do not exist in an ecologically natural state. Farmers will have use of the property for seeding one or more of the following row crops: wheat, oats, soybeans, and/or corn. This practice allows the Forest Preserves to generate revenue, while at the same time preventing invasive plant species from overtaking fallow land. It is the Forest Preserve's intention to restore fallow land as capacity and funding allows, and these interim farming practices are a good method to keep lands in a more manageable condition until a restoration project can take place, thereby reducing future restoration costs. The contract term for row crop farming is a period of one (1) year, with four (4) one-year renewal options to be exercised by the General Superintendent or their designee, which allows the Forest Preserves the option to discontinue farming practices at our discretion in order to restore these lands to a natural condition.

Joseph and Janet McCabe were the sole bidder for the Tampier Greenway preserves row crop site, for a total potential revenue generation over the next five (5) years of \$17,500.00.

Site	Acres	Revenue
Tampier Greenway	25	\$17,500.00
