File #:	18-0313	Version:	2	Name:	ADOPTION OF THE SUSTAINABILITY & CLIMATE RESILIENCY PLAN
Type:	Resolution	Status:			Approved
File created:	7/9/2018	In control:			Environment and Sustainability Committee
On agenda:	7/26/2018	Final action:			9/11/2018
Title:	PROPOSED RESOLUTION				

ADOPTION OF THE SUSTAINABILITY & CLIMATE RESILIENCY PLAN

WHEREAS, over one hundred years ago, visionary leaders had the foresight to create the Forest Preserves of Cook County (hereafter the "Forest Preserves") with the mission "to acquire, restore and manage lands for the purpose of protecting and preserving public open space"; and

WHEREAS, Illinois has experienced a one-degree Fahrenheit increase in average annual temperature since the beginning of the 20th Century; and

WHEREAS, recent climate projections published by the National Oceanic and Atmospheric Administration (NOAA) and other scientific organizations, predict that if global emissions of greenhouse gases continue to rise, historically unprecedented warming is anticipated in the Midwest region in the next few decades; and

WHEREAS, along with a projected rise in annual temperatures, studies also project that the Midwest region likely will experience increased events of extreme precipitation during winter and spring, and intense summer droughts; and

WHEREAS, the Forest Preserves is one of the most important assets of Cook County, and ensuring that its lands, along with its associated ecosystems and wildlife, thrive in the coming century is critical to the success of our entire region; and

WHEREAS, the Forest Preserves' mission drives it to consider the impacts of a changing climate on its own lands, on the communities of which the Forest Preserves is a part, and the planet; and

WHEREAS, the Sustainability & Climate Resiliency Plan was developed to harness the various strengths within the Forest Preserves to address the pressing environmental issues of our time, such as climate change, pollution, invasive species, and habitat loss and fragmentation, all of which are threatening the health of our natural spaces; and

WHEREAS, the Sustainability & Climate Resiliency Plan was created by the University of Illinois Prairie Research Institute at the Illinois Sustainable Technology Center, along with the support and collaboration of key stakeholders, content experts, climate experts, and Forest Preserves staff; and

WHEREAS, the Forest Preserves believes that integrating sustainable practices across all operations, going above and beyond direct environmental stewardship, is fundamental to fulfilling our mission and directly advances the work described in the Forest Preserves' Next Century Conservation Plan; and

WHEREAS, the Forest Preserves is dedicated to implementing responsible practices to mitigate environmental stressors; and

WHEREAS, the Forest Preserves commits to ensuring that our native landscapes, home to a remarkable diversity of plant and animal life, continue to thrive for generations to come; and

WHEREAS, the Sustainability & Climate Resiliency Plan calls for the Forest Preserves to reduce its greenhouse gas emissions by 80% by the year 2050; and

WHEREAS, the Sustainability & Climate Resiliency Plan also calls for the Forest Preserves to implement a roadmap that will allow the Forest Preserves to be resilient in a changing climate; and

WHEREAS, in 32 years, with the successful implementation of the Sustainability & Climate Resiliency Plan, the Forest Preserves aims to have thousands of acres of healthy savannas, woodlands, wetlands, and prairies filled with thriving native plants and animals; and

WHEREAS, visionary and innovative leadership will successfully manage one of the world's largest metropolitan nature preserves in a sustainable and environmentally conscious manner.

NOW, THEREFORE BE IT RESOLVED, that the President and the Forest Preserve Board of Commissioners do hereby adopt the Sustainability & Climate Resiliency Plan.

BE IT FURTHER RESOLVED, that the President and Forest Preserve Board of Commissioners extend their appreciation to the University of Illinois Prairie Research Institute at the Illinois Sustainable Technology Center for their contributions to the plan.
