District(s): 6

Summary: The Forest Preserves is seeking a Recreational Trails Program (“RTP”) grant from the Illinois Department of Natural Resources (“IDNR”) for repaving of 1.6 miles of the Tinley Creek Trail. The application requires that the Forest Preserves confirm its commitment to complete the project, provide the match and enter into an agreement with IDNR if the grant is awarded. The $200,000.00 grant would provide funding for 65% of the total estimated $310,000.00 project cost for the highest priority surface repairs on 1.6 miles of the larger 9.4 miles trail. This portion of the trail was constructed twenty-four (24) years ago and is nearing the end of its useful life. The Tinley Creek Trail is heavily used. The proposed surface repairs would ensure that the trail remains safe and usable; and would avoid the potential threat of more costly repairs in the future.
