

Legislation Details (With Text)

File #:	19-0320	Version:	1	Name:	Quicket Solutions, Inc., Chicago, Illinois
Type:	Contract	Status:		Status:	Approved
File created:	7/2/2019	In control:		In control:	FPD Board of Commissioners
On agenda:	7/23/2019	Final action:		Final action:	7/23/2019
Title:	PROPOSED CONTRACT				

Department(s): Department of Law Enforcement

Vendor: Quicket Solutions, Inc., Chicago, Illinois

Request: Authorization for the Forest Preserves of Cook County (the "Forest Preserves") to enter into and execute

Good(s) or Service(s): Web-Based Evidence Management System

Contract Value: Not to Exceed \$110,000.00 over a five (5) year period

Contract period: 9/1/2019 - 8/31/2024

Estimated Fiscal Impact: FY 2019 \$12,000.00, FY 2020 \$21,000.00, FY 2021 \$21,000.00, FY 2022 \$21,000.00, FY 2023 \$21,000.00, FY 2024 \$14,000.00

Accounts: Professional Services 51001.520840

Contract Number(s): 74000006193 (Issued under Request for Proposal #18-70-100)

Concurrences:

The Chief Financial Officer and Chief Attorney have approved this item.

MWBE participation goals are not applicable due to the contract value per year is below the \$25,000.00 threshold set by Ordinance.

District(s): Districtwide

Summary: The Forest Preserves would like to engage Quicket Solutions, Inc., to provide a Web-Based Evidence Management System including software, cloud-based infrastructure for computing, storage, maintenance, support, updates, and extensive training classes for the use of its system, to the Forest Preserves Department of Law Enforcement.

The Forest Preserves issued a Request for Proposals and received two (2) responses. The Forest Preserves determined that Quicket Solutions, Inc. was the most responsive and most cost-effective to provide the Department of Law Enforcement a Web-Based Evidence Management System. Services include training and support for approximately one-hundred seventeen (117) sworn law enforcement officers, sergeants and command staff and six (6) civilians. The services will allow sworn law enforcement officers to participate in a cloud-based infrastructure for computing and storage on scene from their police vehicles.
