| No agenda: 11/2/2021 Pinal action: 11/2/2021 Title: PROPOSED AGREEMENT Vendor: Institute for Market Transformation, Washington, D.C. Request: Requesting authorization for the Forest Preserves of Cook County (the "Forest Preserves") to enter into an agreement Reason: The Forest Preserves is requesting authorization to enter into a no-cost Memorandum of Understanding (MOU) with a technical assistance provider to ComEd to participate in an incertive program with specific requirements and conditions. In October, ComEd to participate in an incertive would cover presenter (He) High Efficiency (VHE) HVAC system. The General Headquarters (GHQ) incentive voul is cost preserves to provide plans, specifications and data to ComEd's technical assistance parter the Institute for Market Transformation (MTT), a national not-for-portif the total project costs. The MOU requires the Forest Preserves to provide plans, specifications and data to ComEd's technical assistance parter, the Institute for Market Transformation (MTT), a national not-for-portif organization, for approval. [MT will work with the Forest Preserves' design team on multipality-acceptable plans and estimate costs and, if the cost is within the allocated budget, will also retain construction services. The Forest Preserves is account largest building (25,000 square feet), consumes 5% of the Forest Preserves agrees to multually-acceptable plans and project costs, the proposed project codity for 48% to 89% based on the outcomes from other demonstration program participants (eight (8) projects completed in the Pacific Northwest). Contract Pericit: 11/2/2/2/2/1-12/2/1/2/2/2/2 Estimated | Туре: | Agreement | Status: | Approved | | | | | |
| Title: PROPOSED AGREEMENT Vendor: Institute for Market Transformation, Washington, D.C. Request: Requesting authorization for the Forest Preserves of Cook County (the "Forest Preserves") to enter into an agreement Reason: The Forest Preserves is requesting authorization to enter into a no-cost Memorandum of Understanding (MOU) with a technical assistance provider to ComEd to participate in an incentive program with specific requirements and conditions. In October, ComEd advised the Forest Preserves of approval to participate in the Emerging Technologies pilot program with offers a \$300,000.00 incentive would cover part of the estimated construction costs, but is likely to cover less than half of the total project costs. The MOU requires the Forest Preserves to provide plans, specifications and data to ComEd's technical assistance partner, the Institute for Market Transformation (MTAC) system. The incentive would cover part of the estimated construction costs, but is likely to cover less than half of the total project costs. The MOU requires the Forest Preserves to provide plans, specifications and data to ComEd's technical assistance partner, the Institute for Market Transformation (MTAC) system. The Forest Preserves will retain separate design services to prepare plans and estimate costs and, if the cost is within the allocateb dubget, will allor entain construction services. The Forest Preserves is not obligated to proceed if, after good faith efforts, it determines the total project costs, the proposed project could greatly reduce GHAC scarbon footprint and could result in HVAC energy savings ranging from 48% to 89% based on the outcomes from other demonstration program participants (eight (8) project could | File created: | 10/14/2021 | In control: | FPD Board of Commissioners | | | | | |
| Vendor: Institute for Market Transformation, Washington, D.C. Request: Requesting authorization for the Forest Preserves of Cook County (the "Forest Preserves") to enter into an agreement: Reason: The Forest Preserves is requesting authorization to enter into a no-cost Memorandum of Understanding (MOU) with a technical assistance provider to ComEd to participate in an incentive program with specific requirements and conditions. In October, ComEd advised the Forest Preserves of approval to participate in its Emerging Technologies pilot program which offers a \$300,000.00 incentive to install a Very High Efficiency (VHE) HVAC system. The Goneral Headquarters (GHQ) building has an inefficient and obsolete Heating, Ventilating and Air Conditioning (HVAC) system. The incentive would cover part of the estimated construction costs, but is likely to cover less than half of the total project costs. The MOU requires the Forest Preserves to provide plans, specifications and data to ComEd's technical assistance partner, the Institute for Market Transformation (IMT), a national not-for-profit organization, for approval. IMT will work with the Forest Preserves' design team on mutually-acceptable plans and specifications, data collection and documentation of sustianbility outcomes. The Forest Preserves is end to bligated to proceed if, after good faith efforts, it determines the total project costs. GHQ is the Forest Preserves' second largest building (25,000 square feet), consumes 5% of the Forest Preserves' leest interests. GHQ is the Forest Preserves' second largest building (25,000 square feet), consumes 5% of the Forest Preserves' leest interests. GHQ is the Forest Preserves' second largest building tersult in HVAC energy savings ranging from 48% | On agenda: | 11/2/2021 | Final action: | 11/2/2021 | | | | | |
| Request: Requesting authorization for the Forest Preserves of Cook County (the "Forest Preserves") to enter into an agreement Reason: The Forest Preserves is requesting authorization to enter into a no-cost Memorandum of Understanding (MOU) with a technical assistance provider to ComEd to participate in an incentive program with specific requirements and conditions. In October, ComEd advised the Forest Preserves of approval to participate in its Emerging Technologies pilot program which offers a \$300,000.00 incentive to install a Very High Efficiency (VHE) HVAC system. The General Headquarters (GHQ) building has an inefficient and obsolete Heating, Ventilating and Air Conditioning (HVAC) system. The incentive would cover part of the estimated construction costs, but is likely to cover less than half of the total project costs. The MOU requires the Forest Preserves to provide plans, specifications and data to ComEd's technical assistance partner, the Institute for Market Transformation (IMT), a national not-for-profit organization, for approval. INT will work with the Forest Preserves' design team on mutually- acceptable plans and specifications, data collection and documentation of sustainability outcomes. The Forest Preserves will retain separate design services to prepare plans and estimate costs and, if the cost is within the allocated budget, will also retain construction services. The Forest Preserves is not obligated to proceed if, after good faith efforts, it determines the total project costs, the proposed project could greatly reduce GHQ's carbon footprint and could result in HVAC energy savings ranging from 48% to 8% based on the outcomes from other demonstration program participants (eight (8) projects completed in the Pacific Northwest). Contract Period: 11/2/2021 - 12/31/2024 Estimated Fiscal Impact: N/A Account(s): N/A Concurrence(s): The Chief Financial Officer has approved this item. Final agreement is subject to legal review and approval. District(s): 9 | Title: | PROPOSED AGREEMENT | | | | | | | |
| to enter into an agreement Reason: The Forest Preserves is requesting authorization to enter into a no-cost Memorandum of Understanding (MOU) with a technical assistance provider to ComEd to participate in an incentive program with specific requirements and conditions. In October, ComEd advised the Forest Preserves of approval to participate in its Emerging Technologies pilot program which offers a \$300,000.00 incentive to install a Very High Efficiency (VHE) HVAC system. The General Headquarters (GHQ) building has an inefficient and obsolete Heating, Ventilating and Air Conditioning (HVAC) system. The incentive would cover part of the estimated construction costs, but is likely to cover less than half of the total project costs. The MOU requires the Forest Preserves to provide plans, specifications and data to ComEd's technical assistance partner, the Institute for Market Transformation (IMT), a national not-for-profit organization, for approval. IMT will work with the Forest Preserves' design team on mutually- acceptable plans and specifications, data collection and documentation of sustainability outcomes. The Forest Preserves will retain separate design services to prepare plans and estimate costs and, if the cost is within the allocated budget, will also retain construction services. The Forest Preserves is not obligated to proceed if, after good faith efforts, it determines the total project is not in the Forest Preserves' best interests. GHQ is the Forest Preserves' second largest building (25,000 square feet), consumes 5% of the Forest Preserve's electricity, 7% of its natural gas and produces 6% of its greenhouse gas emissions. Assuming the Forest Preserves agrees to mutually-acceptable plans and project costs, the proposed project could greatly reduce GHQ's carbon footprint and could result in HVAC energy savings ranging from 4% to 8% by based on the outcomes from other demonstration program participants (eight (8) projects completed in the Pacific Northwest).
